## Purpose

This Standard Operating Process (SOP) document is designed to establish consistent and efficient procedures for the Customer Experience team to enhance overall operational efficiency. The goal is to ensure that all customer complaints are logged accurately and promptly in ABS. By following the procedures outlined in this document, all team members will contribute to a more efficient workflow and reduced error rates.

## Scope

This SOP is applicable to all SKDLA employees and is specifically intended for use by the Customer Experience team.

## Responsibilities

All SKDLA team members are responsible for accurately logging customer complaints in the ABS system.
