Purpose

This Standard Operating Process (SOP) document is designed to establish consistent and efficient procedures for the Customer Experience team to enhance overall operational efficiency. The goal is to ensure that all customer positive feedback is logged accurately and promptly in ABS. By following the procedures outlined in this document, all team members will contribute to a more efficient workflow and reduced error rates.

Scope

This SOP is applicable to all SKDLA employees and is specifically intended for use by the Customer Experience team.

Responsibilities

All SKDLA team members are responsible for accurately logging customer positive feedback in the ABS system.

Procedure

Notes
Log anything communicated to you that delighted the customer.

General structure
Who did you speak with? When did you speak with them? What was the feedback? Why did it happen? How did you follow up?
