📘 Customer Service Workflow Training Guide

Focus: Core SKDLA Protocols & Q&A Handling

1. 🚚 Logistics-Related Inquiries

🟦 Local Driver Requests

Action Steps:

- Confirm if the office qualifies (use approved driver pick list)
- Check local drivers current daily log for reference if always on the list
- Share pickup information in the **Teams channel**
- Ensure request is clearly documented **Pick up google tracker**

🟦 FedEx Pickup / Label Requests

Action Steps:

1. Create FedEx pickup or shipping label
2. Email label/details to customer
3. Log request in **Pick up google tracker**

2. 📊 Case Status Types

🟩 On Track / Case Status Inquiry

Action Steps:

- Log in **ABS system**
- Add this to the **Tracker** to ensure accountability to provided due date

🟥 Late Case

Action Steps:

- Log in **ABS**
- **Communicate with Runner** 🚨 RAPID RESPONSE REQUIRED (within 30 minutes)
- Update **Tracker immediately**
- Escalate to Lead/Manager if needed
- Follow up with final resolution

🟨 At Risk Case

Action Steps:

- Log in **ABS**
- **Communicate with Runner Runner** based on urgency

- Update Tracker
- Involve Lead/Manager depending on severity
- Continue follow-up until communication on estimated time of arrival has been completed

3. 💬 Feedback Handling

❌ Negative Feedback

Action Steps:

- Log complaint in **ABS**
- Assess cause (late delivery, quality issue, representative relaying complaint etc.)
- Involve Runner if applicable
- 🚨 RAPID RESPONSE (within 30 minutes) if applicable
- Escalate to Lead/Manager for resolution if applicable
- Follow up with customer

✅ Positive Feedback

Action Steps:

- Log in **ABS**

4. 🛠️ Technical Inquiries

🟢 Live Cases

Action Steps:

- Use **ABS** to locate case details
- Provide available information (RX details, technical notes, etc.)
- If needed, contact Tech Support via:
    - Teams / Extension / Email
- ❗ No blind transfers allowed
- If unable to reach support:
    - Contact Lead/Runner for urgency decisions
    - Otherwise send email/Teams message with:
        - Doctor/Rep contact info

        - Phone number
        - Email
        - Availability/hours
        - Topic of discussion/Questions

🟡 **Potential Cases (General Questions)**

Action Steps:

- Answer using internal knowledge or training documents
- Examples:
    - Scan requirements
    - Turnaround times for fabrication
- Refer to standard training materials when unsure
- If needed, contact Tech Support via:
    - Teams / Extension / Email
- If unable to reach support:
    - Contact Lead/Runner for urgency decisions
    - Otherwise send email/Teams message with:
        - Doctor/Rep contact info
        - Phone number
        - Email
        - Availability/hours
        - Topic of discussion/Questions

5. ⚡ Rush Inquiries (May Include Additional Fees)

📌 Required Actions:

- Email or Teams message Runner and CC Lead (in-house or home base)

📋 Must Collect:

- Doctor information
- Are we a preferred lab?
- Customer status (existing or new)
- What are we fabricating (C&B, implants, removable, etc.)
- Physical or digital case
- Required due date
- Best callback number for follow-up

*If the rush inquiry is for a case not in the lab, please inform office we would need the case in lab to determine if we are able to rush. If office is persistence please contact runner with the details listed above.

⏱️ Critical Rules Summary

- 🚨 Rapid response cases = **within 30 minutes**
- Always use **ABS logging + Tracker updates**
- No blind transfers for technical support
- Escalate early when unsure (Lead/Manager/Runner)
- Follow up until resolution is complete
