Standard Operating Procedure: FedEx Pickup & Label Returns

1. Pre-Processing Requirements

Before logging into the portal, obtain the following information from the requesting office:

- Account Number.
- Pickup Timeframe based on office hours.
- Recipient Email Address.

2. Shipment Creation & Label Generation

Access the FedEx portal via the Secure Login Page.

-
- Address Entry: Ship From: Enter the office address details .
    - Ship To: Select "My Default Address" and update if a different destination is required.
- Packaging Information:
    - Type: Select "My Packaging".
    - Weight: Set to 1 lb (default for Dental Impressions).
    - Service: Select FedEx 2nd Day Air unless otherwise instructed.

3. Pickup Scheduling

Determine the office's needs regarding package transition:

- Drop-off: If no pickup is required, select "I'll drop off my shipment".
- On-Site Pickup: Select "Schedule a new pickup".
    - Time Window: Ensure a 3-hour window is established within office hours.
    - Instructions: Enter the earliest and latest possible times and specify "Office" as the preferred location.

4. Finalization & Communication

1. Generate Label: Print the label as a PDF in portrait orientation and save it to the designated folder.
2. Notification Email: Send an email to the office with the following details:
    - Attachment: The generated FedEx Label PDF.
    - Subject: FedEx Label for Pickup - SKDLA.
    - Body: State the scheduled pickup date and time window. Instruct the office to package the cases in a box and affix the provided label.

Public KB copy: credentials and selected example details removed.

[NOTE] While some internal notes may reference "UPS," all portal actions and external communications must strictly utilize FedEx services as per the primary workflow.
